Industrial imaging

Completeness monitoring for the packaging technology

Incomplete shipments – never again

If a pallet with only one incomplete handling unit reaches the customer, he often returns all goods. This does not only lead to dissatisfaction but also to additional costs. Completeness monitoring provides the remedy. Often individual sensors are installed above each individual handling unit position. This is, however, not very flexible if the handling unit type or size changes. Then changes become necessary. If colour or texture of the handling units change, conventional sensors reach their limits.

All these problems are unknown to completeness monitoring on the basis of 3D sensors: The 3D sensor looks at the handling unit from above and compares it with the models taught in by the user. It signals any deviation via a switching output.

Continuous exchange with users and extensive handling tests have lead to extraordinarily simple operation and integrability of the sensor.

Innovative operating concepts for intuitive handling

- Different handling units can be taught
- Reliable detection of underfill or overfill
- Automatic position tracking
- Colour-independent and extraneous-light
 resistant due to time-of-flight technology (PMD).
- Switching outputs and Ethernet process data interface

Further technical data

Operating voltage	[V DC]	20.428.8
Current consumption	[mA]	< 2400 peak current pulsed; typ. mean value 420
Current rating (per switching output)	[mA]	100
Short-circuit protection, pulsed		•
Overload protection		•
Ambient temperature	[°C]	-1050
Real chip resolution		25,000 / 100,000
Resulting resolution		176 x 132 pixels
Function display	LED	2 x yellow, 2 x green
Illumination		850 nm, infrared
Ambient light	[lux]	Max. 8,000 (indoor)
Trigger		External; 24 V PNP/NPN according to IEC 61131-2 type 3
Switching inputs		2 (configurable), 24 V PNP/NPN according to IEC 61131-2 type 3
Switching outputs		3 (configurable), 24 V PNP/NPN, according to IEC 61131-2
Parameter setting interface Ethernet		10 Base-T /100 Base-TX
Possible parameter settings		Via PC / notebook
Dimensions (H, W, D)	[mm]	72 x 65 x 85
