| Product characteristics    |       |           |   |
|----------------------------|-------|-----------|---|
| Measuring range            |       | -40150 °C | -40302 °F                               |
| Process connection         |       |           | G 1 Aseptoflex Vario                    |
| Installation length EL     | [mm]  |           | 113.8                                   |
| Application                |       |           |   |
| Special feature            |       |           | Gold-plated contacts                    |
| Measuring element          |       |           | 1 x Pt 1000; (to DIN EN 60751, class A) |
| Application                |       |           | hygienic systems                        |
| Media                      |       |           | liquids and gases                       |
| Pressure rating            | [bar] |           | 50                                      |
| Minimum installation depth | [mm]  |           | 15                                      |
| Electrical data            |       |           |   |
| Protection class           |       |           | III                                     |
| Measuring/setting range    |       |           |   |
| Probe length L             | [mm]  |           | 100                                     |
| Measuring range            |       | -40150 °C | -40302 °F                               |
| Accuracy / deviations      |       |           |   |
| Accuracy                   | [K]   |           | ± (0,15 K + 0,002 x t )                 |
| Response times             |       |           |   |
| Dynamic response T05 / T09 | [s]   |           | 5 / 14; (to DIN EN 60751)               |
| Operating conditions       |       |           |   |
| Ambient temperature        | [°C]  |           | -2580                                   |
| Protection                 |       |           | IP 68; IP 69K                           |
| Mechanical data            |       |           |   |
| Weight                     | [g]   |           | 0.24                                    |
| Materials                  |       |           | stainless steel (316L/1.4404)           |
|                            |       |           |   |

# TM1061

### Temperature sensor with process connection

| Materials (wetted parts)   |      | stainless steel (316L/1.4404) |
|----------------------------|------|-------------------------------|
| Process connection         |      | G 1 Aseptoflex Vario          |
| Surface characteristics Ra | a/Rz | Ra: < 0.6                     |
| Probe diameter             | [mm] | 10                            |
| Installation length EL     | [mm] | 113.8                         |

| Remarks       |   |  |  |
|---------------|---|--|--|
| Remarks       | The values for accuracy apply to flowing water.   |  |  |
|               | The 3-A qualification is only valid if adapters with 3-A qualification are used for installation. |  |  |
|               | operating voltage "supply class 2" according to cULus   |  |  |
| Pack quantity | 1 pcs.  |  |  |

## Electrical connection

Connector: 1 x M12; coding: A; Contacts: gold-plated

### Connection
